Countries are asked to email their weekly reports to surveillance.sp@wpro.who.int

A red underlined entry indicates that the number of cases is above the threshold of 90% of historical values.

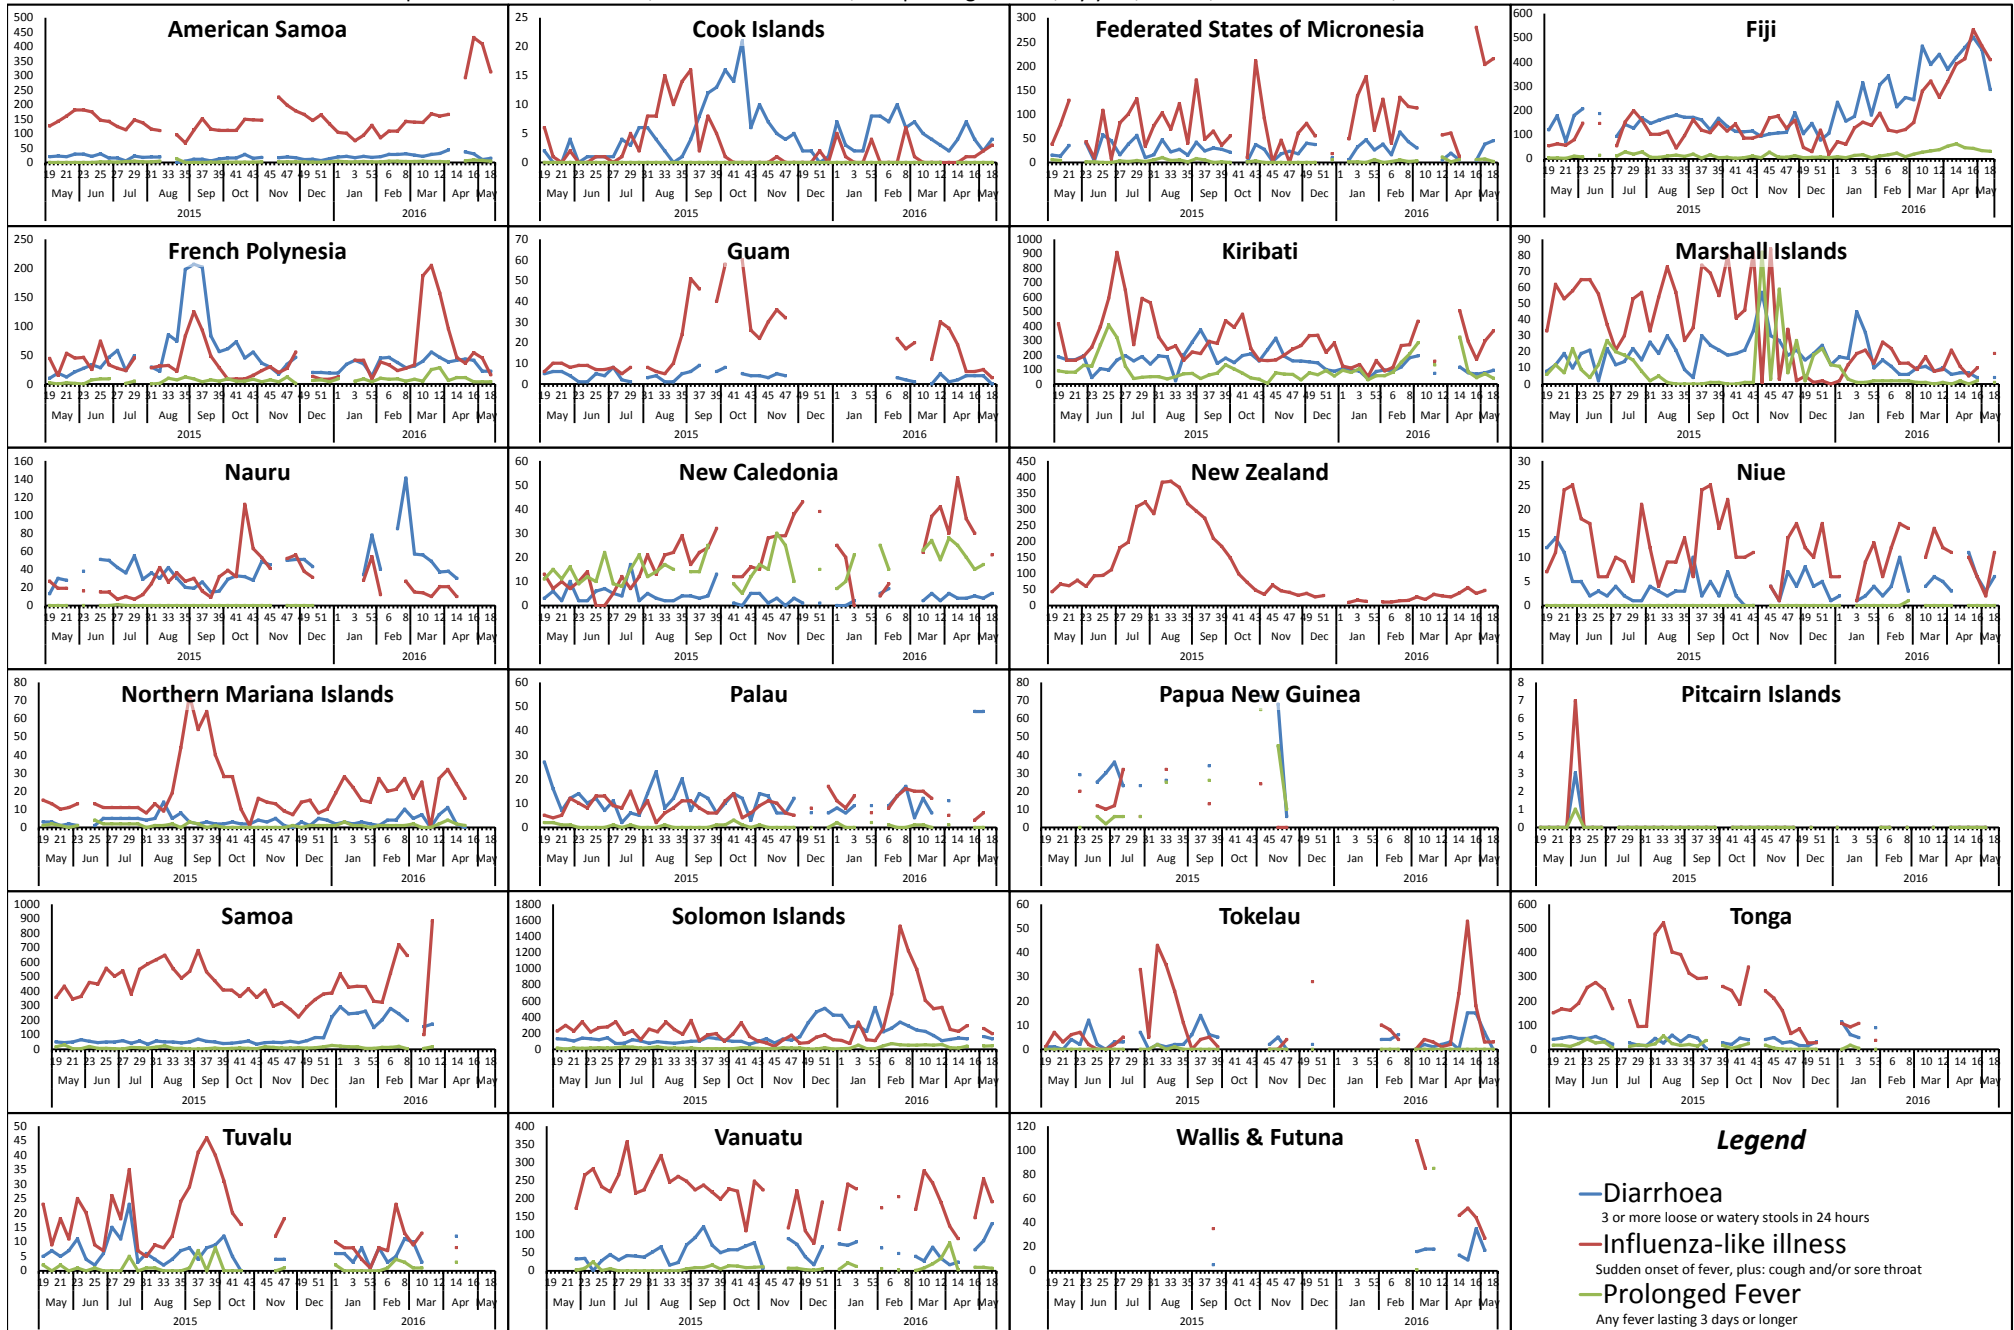

Pacific Syndromic Surveillance System

2016

week 18

ending 8 May 2016

Reported cases of diarrhoea, influenza-like illness, and prolonged fever; by year, month, and week number; for the last 53 weeks

Note: Numbers of reported cases are not comparable between countries. The purpose of the charts is to show trends over time within each country/area.
