

Pacific Syndromic Surveillance System

Week 27 ending 10 July 2011

Trends of reported cases of diarrhoea, influenza-like illness, and prolonged fever; by country or area and by week; for the last 26 weeks

Note 1: Numbers of reported cases are not comparable between countries. The purpose of the charts is to show trends over time.

Note 2: * In week 26, Cook Islands increased the number of reporting sites from 3 to 11.
