GUAM MUMPS OUTBREAK UPDATE

As of May 3, 2010, there have been 142 confirmed or probable mumps cases recorded on Guam as a result of the current ongoing outbreak with 71 additional suspect cases still under investigation. Only 2 cases have required hospitalization (both had co-morbidities) and there have been no mumps-related deaths thus far. Eighty-three percent of confirmed and probable cases have been in children under 18 years of age, the highest number of cases (44) occurring in the age-group 11-13.
